## Version 4.x

Version	Date	Description	Jira-Task (only internal)	Setup
4.2.0.453		Added <ul style="list-style-type: none"><li>• Add parameter support inside the Upload-URL</li><li>• Add Spanish helpfile</li></ul>		
4.2.0.456		Added <ul style="list-style-type: none"><li>• Added Support of 4096 Encryption Keys</li></ul> Fixed <ul style="list-style-type: none"><li>• Bugfix to avoid crashes or warnings before and after signing</li><li>• Bugfix that no Pad was found</li></ul>		
4.2.0.460		Added <ul style="list-style-type: none"><li>• Function to lock the Form fields with the 1. Signature, this is the default behavior now (can be disabled in the configuration under file-handling)</li><li>• Export function for Random Key</li></ul> Fixed <ul style="list-style-type: none"><li>• Bugfix for missing temp folder</li><li>• Bugfix for using existing DigSig Fields</li></ul>		
4.2.0.494		Added <ul style="list-style-type: none"><li>• Support of DigSig Fields which are already inside a PDF Document. The fields have to be selected in the SSS or XML file by their Fieldname.</li><li>• Added Default Timeserver to eSO Settings which can be used for the timestamp. This server is hosted by StepOver (<a href="http://stepoverinfo.net:88/tsa/">http://stepoverinfo.net:88/tsa/</a>). Information's about trusted timestamping can be found in Wikipedia: <a href="http://en.wikipedia.org/wiki/Trusted_timestamping">http://en.wikipedia.org/wiki/Trusted_timestamping</a></li></ul>		
4.2.0.497		Added <ul style="list-style-type: none"><li>• Add NotaryInformation from Signaturpad to each Signature</li><li>• Notary Information can be check with eSignatureOffice (Menü: Check)</li></ul>		
4.2.0.500		Fixed <ul style="list-style-type: none"><li>• Increased Versionnumber to 500, the last Versions had a to low Number</li></ul>		
4.2.0.511	2011-10-05	Added <ul style="list-style-type: none"><li>• Directory and Pagepreview, there are new Options for this in the Administration</li><li>• new XML Tags for Stamp, Confirmation dialog, BackgroundImage and Location</li></ul> Fixed <ul style="list-style-type: none"><li>• Background-Image Upload in Standard-Signmode</li></ul>		
4.2.0.527	2011-11-07	Added <ul style="list-style-type: none"><li>• new XML Tags for MacroButton-Historie and a to see if a Keyword was found or not</li><li>• new mode for the pagepreview, can be activated in the Administration under Directory</li><li>• timeserver is now used by default</li><li>• new parameter to change Display brightness of the ColourPad</li></ul> Fixed <ul style="list-style-type: none"><li>• Problem with unvalid Signatures when the PDF-Form lock was activated</li><li>• Renderproblems by scanned PDFs</li><li>• Accessviolation with the Textsearch (Intelligent Fields)</li></ul>		

4.2.0.529		<p>Added</p> <ul style="list-style-type: none"> <li>• Signature Properties for Location, Reason and Signer</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• missing German translation for new Options</li> <li>• Problems with XML Tag MacroButtonHistory</li> </ul>		
4.3.0.541	2011-12-16	<p>Added</p> <ul style="list-style-type: none"> <li>• Enable a sleeping Pad (ColourPad)</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Umlaute Problem with in XML</li> <li>• Textsearch Problems by PDF's</li> <li>• Rendering Problems by PDF</li> </ul>		
4.4.0.548	2012-01-12	<p>Added</p> <ul style="list-style-type: none"> <li>• XML Parameters(PDF Copy without Biodata)</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Fixed Problem with Signature Zoom</li> <li>• Not all Signature are visible in the Document Check</li> </ul> <p>Removed</p> <ul style="list-style-type: none"> <li>• Sealing Option in Macrobuttons (automaticity sealing)</li> </ul>		
4.4.0.560	2012-03-20	<p>Added</p> <ul style="list-style-type: none"> <li>• Error7 and Error5 to Retfile</li> <li>• More Stamp Informations are possible, the Dialog for that is flexible</li> <li>• new XML Parameter</li> <li>• Helpfile Option (CHM File)</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• SignInDoc Problems by Landscape Documents</li> <li>• Download Problems</li> <li>• Font Problems by some font types</li> </ul>		
4.4.0.562	2012-04-03	<p>Added</p> <ul style="list-style-type: none"> <li>• Signature Check directly after Signing</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Signing problems with existing DigSig Fields</li> <li>• Signature Check by Signatures with existing DigSig Fields</li> </ul>		
4.5.0.574	2012-05-09	<p>Added:</p> <ul style="list-style-type: none"> <li>• Support of Comfort and Flawless Pads</li> <li>• N-trig Support</li> <li>• New Functions for WebSign (GetWorkMode(); SetMode(); HighlightFields(); SetActiveField();)</li> <li>• New XML Tags (ReturnFormFieldValues, DisableAutoJumpToPrevField, EnableLastFiledSkipping, DisableBackButton)</li> </ul> <p>Fixed:</p> <ul style="list-style-type: none"> <li>• Zoom returns after Signing to previous level (WebSign)</li> <li>• Problem with PC Lock/Standby</li> <li>• PDF Rendering Problems</li> </ul>		
4.7.0.686		<p>Fixed</p> <ul style="list-style-type: none"> <li>• Problem when you change Windows Size while Signmode is active</li> <li>• issue with VirtualStore and the file Customer.bmp</li> <li>• German Translation Problem</li> </ul>		
4.7.0.688	2013-04-19	<p>Add</p> <ul style="list-style-type: none"> <li>• Mousewheel scrolling to form mode</li> <li>• Signature Confirmation with "Enter Key"</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Problem when loaded PDF with an Image-Signature</li> </ul>		
4.9.0.825	2014-03-31	<p>Fixed</p> <ul style="list-style-type: none"> <li>• problems by loading eSO caused by OpenSSL Libs</li> <li>• sopad using now the saved certificates for signing instead of creating each time a new one</li> </ul>		

4.9.0.830	2014-04-22	Fixed <ul style="list-style-type: none"> <li>last signature is now always visible in SignInDoc-Mode</li> </ul> Improved <ul style="list-style-type: none"> <li>the signature less fade out while saving</li> </ul>		
4.9.0.831	2014-04-23	Fixed <ul style="list-style-type: none"> <li>Problem when leaving signature mode with View-Mode Button</li> <li>Problem with HTTPS Connections (updated Transfer.dll)</li> </ul> Improved <ul style="list-style-type: none"> <li>Installation with TCP Option will create "TCP and Citrix Extension" Folder + config.ini under AppData</li> </ul>		
4.9.0.835	2014-05-05	Fixed <ul style="list-style-type: none"> <li>AfterCancel was not triggered by SSS and XML</li> <li>Repeat and Abort functions didn't worked correctly</li> </ul>		
4.9.0.836	2014-05-08	Fixed <ul style="list-style-type: none"> <li>AfterCancel Macro was triggered twice by optional signatures</li> <li>a started Signatur was not saved with Macro Button</li> <li>different default values in Startmanager and SOSigOffice</li> </ul>		
4.9.0.842	2014-06-20	Fixed <ul style="list-style-type: none"> <li>Problems with XML Encoding (German Umlauts) by Output XML</li> <li>Problems with &lt;DeviceKeys&gt; Tag (25sec delay)</li> <li>Changing from Sign to View Mode by the first Signature was triggering AfterCancel action</li> </ul> Improved <ul style="list-style-type: none"> <li>Error handling in case somebody just draw a single point</li> </ul> Add <ul style="list-style-type: none"> <li>Form field option, that you can only insert text as width as the field is (there is still a problem that with different zoom settings the amount of letters you can enter is changing)</li> </ul>		
4.9.0.844	2014-06-26	Fixed <ul style="list-style-type: none"> <li>Problem with Optional Signature ( were treated like mandatory fields)</li> <li>Access Violation, when Pad Search was started without connected pad</li> </ul> Add <ul style="list-style-type: none"> <li>Option in Administration to enable AfterSigning macro in case all signatures where skipped (by Default this means AfterCancel)</li> <li>Logfile per Day, with option to delete log files older than x days</li> </ul>		
4.9.0.846	2014-06-29	Improved <ul style="list-style-type: none"> <li>Behaviour of Document-View Button while Sign-process</li> </ul>		
4.9.0.848	2014-07-10	Add <ul style="list-style-type: none"> <li>Support of Timeserver with longer Keys (4096)</li> </ul> Fixed <ul style="list-style-type: none"> <li>Problems with grey pages while SignInDoc Mode with ColourPad Version 2.0</li> <li>Improved Speed when swtiching to SignInDoc Mode</li> <li>Problems with form field locking (caused Adobe crash when loading of the PDF)</li> </ul> Changed <ul style="list-style-type: none"> <li>The behaviour of WebSign Active-X was changed, in the way that you can start another (second) instance of the Active-X and don't get the error message "another instance is already running". Now the new instance will terminate the existing instance, to allow a page refresh under chrome.</li> </ul>		
4.9.0.850	2014-07-14	Add <ul style="list-style-type: none"> <li>Merging of PDF documents with XML-Input (new tag: &lt;PDF-Merge&gt;)</li> </ul> Changed <ul style="list-style-type: none"> <li>TabletPC Support was temporally disabled because of a problem (will be back in 2-3 Weeks)</li> </ul>		
4.9.0.852	2014-07-16	Add <ul style="list-style-type: none"> <li>Error message for the case the signature field was drawn over 2 pages</li> </ul> Fixed <ul style="list-style-type: none"> <li>Problems with Macro Visibility Options</li> <li>Document with existing DigSig files won't save after signing</li> <li>Removed Timeserver Response Logging</li> </ul>		

4.9.0.854	2014-07-31	Fixed		
		<ul style="list-style-type: none"> <li>Access violation by closing WebSign with Chrome Browser</li> <li>Incorrect Build number in log files</li> </ul>		
4.9.0.859	2014-08-21	Add	<ul style="list-style-type: none"> <li>The same signature position will not be offered for signing if there is already a Signature at the same location inside the document (allows to use the same SSS and PDF multiple times without removing signatures from SSS).</li> <li>Added PKCS12 import to XML and with start parameter</li> <li>A signed DigSig can't be offered again for signing</li> </ul>	
		Removed	<ul style="list-style-type: none"> <li>old start parameter for setting keys (from eSignatureOffice 3)</li> </ul>	
		Fixed	<ul style="list-style-type: none"> <li>Accessviolation/Memoryleak by the textsearch (BLS Engine)</li> <li>Rendering Problem of an Barcode</li> <li>Signature-Check showed only the details of the last Signature of the document</li> <li>Save Problem by the combination of DigSig PDF and active Integrity Check after Signing</li> <li>Problem with -nobiodata Parameter (only 1 signature was possible)</li> <li>Problem with Signing Colour in combination with Image Sign function</li> <li>Image Sign function supports now more image types</li> <li>Problem with PNG Image Type for SignImage function</li> <li>Skip Signature behaviour was not working correctly</li> </ul>	
		<b>WebSign Problems under Chrome</b>	<ul style="list-style-type: none"> <li>multiple problems with Termination of WebSign under Chrome (OM-2, OM-3, OM-4, OM-5, OM-6, OM-12)</li> </ul>	
4.10.0.861	2014-08-28	Add	<ul style="list-style-type: none"> <li>Option for SSS and XML to show/disable the Signer-Request-Dialog</li> <li>document content can be used in macrobutton (Textsearch)</li> </ul>	
		Fixed	<ul style="list-style-type: none"> <li>Message Windows sometimes open in Background</li> <li>Messages from devices was not handle and timeouts happens</li> <li>Problem with Rendering-Threats between Signatures which were causing crashes</li> <li>Zero Values in decrypted Biodata are removed</li> <li>Message that the following signature is the last of the signature-set was not displayed.</li> <li>Import of that Value by SCS will only work with new SCS Files.</li> <li>Save As was not Working in Menu of old/classic GUI</li> <li>HTTP/FTP Problems in combination with XML and Macrobutton</li> <li>Problems in case Timeserver URL is wrong and Signature Process was canceled</li> <li>Signature Lines with old 1.x Firmware Pads where very thin</li> <li>Change Error Message "Unable to load existing Signatures" to "Too less Signature-data. Please repeat."</li> </ul>	
		Changes	<ul style="list-style-type: none"> <li>Timeout Parameter in SSS (+added to XML), it's now also saving a signature in case there are enough biodata</li> <li>Replace the Abort-Button in Signer-Request-Dialog with a Button "No Stamp"</li> </ul>	
4.10.0.866	2014-09-15	Fixed	<ul style="list-style-type: none"> <li>Crash with happens with customer documents in combination with higher amount of signatures</li> <li>Reloading of SecureSign was not working</li> <li>Problems what Message or other Popup Windows stay in background, while using StayOnTop Parameter</li> </ul>	eSignatureOffice410_140915
4.10.0.870	2014-09-30	Fixed	<ul style="list-style-type: none"> <li>Biodata String was missing meta data of the signature rectangle</li> <li>Administration Windows was blank in case it was accessed with SecureSign</li> <li>Driver-XML check was not working correct</li> <li>Rendering Problems which causing crashes (after signature and loading of the document)</li> </ul>	eSignatureOffice410_140930
		Add	<ul style="list-style-type: none"> <li>Text search function for Macro Settings (e.g. to use content of the document for Email sending)</li> </ul>	

4.10.0.872	2014-10-28	<p>Fixed</p> <ul style="list-style-type: none"> <li>• Sign Button was not visible after reload of SecureSign</li> <li>• Language Parameter (lang=) was not working anymore</li> <li>• Option to disable the Timeserver is not reachable message, was not correctly saved</li> <li>• Translation in Stamp Popup Windows was wrong</li> <li>• AccessViolation in WebSign (changing into signmode)</li> <li>• missing and wrong translations in Administration</li> </ul> <p>Add</p> <ul style="list-style-type: none"> <li>• New Option to handle read-only attribute when saving the pdf</li> </ul>		<a href="#">eSignatureOffice410_141028</a>
4.10.0.884	2014-12-19	<p>Fixed</p> <ul style="list-style-type: none"> <li>• small font when formfield was set to autosize</li> <li>• access violation when signature was saved (with FW 1.x devices)</li> <li>• multisign option was not detecting a signature at the same position inside the document (rounding error)</li> <li>• macro save option windows was not closing then renaming field was empty and renaming was disabled</li> <li>• incorrect versions number in HKLM</li> <li>• licence was not correctly saved (after program restart the licence popup came again)</li> <li>• PDF Rendering Problems</li> </ul> <p>Add</p> <ul style="list-style-type: none"> <li>• More Tooltips</li> <li>• Optional abort button for optional signatures (will stop signature process)</li> <li>• General Signature Options can be edit now (new Button in Signature-Set Window)</li> <li>• notification when search text was not found inside the document (file-renaming)</li> <li>• visibility of macro buttons have not start and end time</li> <li>• Showing serial numbers in device search dialog</li> </ul> <p>Changed</p> <ul style="list-style-type: none"> <li>• Signature-Set Creation Window (renaming of Options and layout changes)</li> </ul>		<a href="#">eSignatureOffice410_141219</a>
4.10.0.890	2015-02-03	<p>Fixed</p> <ul style="list-style-type: none"> <li>• wrong file name is used by macrobutton option for save as</li> <li>• problem with logging</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>• TCP-Client Performance</li> </ul>		<a href="#">eSignatureOffice410_150203</a>
4.11.0.896	2015-03-02	<p>Fixed</p> <ul style="list-style-type: none"> <li>• colour device was not showing sign background when signature was repeated</li> <li>• AfterSign / Macrobutton visibility conflict</li> <li>• signature was saved instead of cancel (cause that AfterSign and AfterCandle where triggered)</li> <li>• HashDialog cancel failed when only one signature was part of the set</li> <li>• MacroButton disabeling option while signing was not working correctly</li> <li>• SCS Import Error</li> <li>• language parameter was not working</li> <li>• Macro Problem with classic UI</li> <li>• message before the last signature was not shown</li> <li>• PDF Rendering Problems</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>• Document Content search allows to search backwards and between 2 Strings now</li> </ul>		<a href="#">eSignatureOffice411_150302</a>

4.11.0.898	2015-03-17	<p>Fixed</p> <ul style="list-style-type: none"> <li>• incorrect "Valid to" time by created certificates</li> <li>• incorrect viewing Position by using Directory</li> <li>• After Import with Administration the Macrobuttons where not visible (application restart was necessary)</li> <li>• problem with too less Signature-data message</li> <li>• Set minimum windows width</li> <li>• handling when empty string was found by intelligent-renaming</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>• order by intelligent-renaming can be changed (new up/down button)</li> <li>• Windows layout size (using more than 100%)</li> <li>• Import Error message with FTPSET and SignatureSet Paths can be disabled</li> <li>• Removed FTP Setting as Standard Export-Option</li> </ul>		eSignatureOffice411_150317
4.11.0.901	2015-03-26	<p>Fixed</p> <ul style="list-style-type: none"> <li>• Repeat signature with Hash/Confirm Dialog was adding the previous signature image</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>• Added content search icon</li> <li>• Default FTP- and SSS-Set folder will now be placed into user folder</li> </ul>		eSignatureOffice411_150326.exe
4.11.0.901	2015-05-06	<p>Improved</p> <ul style="list-style-type: none"> <li>• Updated TCP and Citrix Files (final Versions)</li> </ul>		eSignatureOffice411_150326b.exe
4.11.0.906	2015-07-10	<p>Improved</p> <ul style="list-style-type: none"> <li>• incorrect created certificate will now replaced with a correct one automatically</li> </ul>		eSignatureOffice411_150710.exe
4.11.0.906	2015-08-05			eSignatureOffice411_150805.exe
	2015-10-05			eSignatureOffice412_151005.exe
4.12.0.922	2015-11-16			eSignatureOffice412_151611.exe
	2016-02-08			eSignatureOffice412_160208.exe
	2016-03-10			eSignatureOffice412_160310.exe
4.12.0.949	2016-04-08			eSignatureOffice412_160408.exe
4.12.0.955	2016-06-02	<p>Fixed</p> <ul style="list-style-type: none"> <li>• No abort message after signature cancel on the device</li> <li>• Problems with download of files (HTTP(s))</li> <li>• Runtime Error after closing of eSignatureOffice</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>• remove obsolete Import/Export Option for PDF representation</li> <li>• Icons for the Signer/Reason/Location dialog changed</li> <li>• Signature colour for the signature device can be changed (only for Devices with Firmware 6.x)</li> </ul>		eSignatureOffice412_160602.exe
4.12.0.958	2016-06-15	<p>Fixed</p> <ul style="list-style-type: none"> <li>• Colour Device was not switching to Standby when closing eSignatureOffice with Macro Button</li> </ul>		eSignatureOffice412_160615.exe

\* official release Versions

## Version 5.x

Version	Date	Description	JIRA Task (only internal)	Setup	Test-Protocol (only internal)
---------	------	-------------	---------------------------	-------	-------------------------------

5.0.0.963	2016-06-29	<p>Fixed</p> <ul style="list-style-type: none"> <li>Crash with SecureSign</li> <li>Signing with B/W devices didn't work</li> <li>selected language of Device-Search-Dialog was after language change incorrect</li> <li>crash after configuration change</li> <li>Document Viewing sometimes didn't work because of threading issue</li> <li>removed incorrect Text inside Device-Search-Dialog (Search for Serial devices)</li> <li>SCS Import Problem</li> <li>displaced Signature by customer documents (PDF Xpansion 8.9.8.0)</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>Added Linebreak to FFF file</li> <li>remove obsolete Option inside Import/Export window</li> <li>check for permissions rights before saving of files (added Error message in case rights are insufficient)</li> <li>Changes inside the StartScreen (show in Background / Text Colours)</li> <li>Added Desktop Icon Option to setup</li> <li>Parameter field of the PDF Converter was increased</li> <li>Improved Window Size Option for GUI Version 4 and 5</li> <li>Translations updated</li> </ul>		eSignatureOffice50_160629.exe	
5.0.0.963	2016-07-21	<p>Improved</p> <ul style="list-style-type: none"> <li>Setup sets new Version to be default Application of the PDF-Converter</li> </ul>		eSignatureOffice50_160629b.exe	
5.1.0.968	2016-08-04	<p>Fixed</p> <ul style="list-style-type: none"> <li>Possibility to change checkbox values after signing inside form mode</li> <li>Open document from FTP dialog was closing the loaded document</li> <li>Problem with overlapping toolbar icons</li> <li>Import of some SCS files defaced the new GUI</li> <li>correct some Textlabels</li> <li>remove obsolete Option for Signature Rectangle</li> <li>Import problem with some SCS files (Version 80)</li> </ul>		eSignatureOffice50_160804.exe	
5.1.0.969	2016-08-10	<p>Fixed</p> <ul style="list-style-type: none"> <li>Slow drawing of the signature with SecureSign and TabletPC usage</li> </ul>		eSignatureOffice50_160810.exe	
5.1.0.970	2016-08-16	<p>Improved</p> <ul style="list-style-type: none"> <li>click on the signature details (signature info panel) change view to the selected signature</li> <li>new signature icons for the signature info panel</li> <li>visible highlight of existing (empty) signature fields inside the PDF document</li> <li>Signing all existing signature fields inside a PDF document without the need of a SSS file</li> <li>clean up Temp folder at startup</li> <li>PDF File extension is now added automatically for the file-renaming option in case user forgot it</li> <li>removed obsolete public/private key options inside Administration</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>Problem with Multiline Textfields which had the No-Scroll Option</li> <li>Intelligent Parameter Search was removing existing values in case the windows was closed with Cancel-Button</li> </ul>		eSignatureOffice51_160816.exe	
5.1.0.974	2016-09-13	<p>Improved</p> <ul style="list-style-type: none"> <li>Added ZoomAfterSign Option to set Zoom level after Signing Process</li> <li>Changed values inside Administration will exported without the need to save them first</li> <li>Added Option to start manually signing, in case there was no signature found with SignatureSet</li> <li>Added first version of automatically Signatureset mapping for the loaded document</li> <li>Update to MSXML6 Lib.</li> <li>Changed settings will now exported without the need to save them first</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>Missing Translation in Toolbar Settings</li> <li>ReadBeforeSign didn't work correctly</li> <li>Bugfix that application window is not presented unfinished during startup</li> <li>filename status problems with XML Input</li> </ul>		eSignatureOffice51_160913.exe	

5.1.0.977	2016-09-30	<p>Fixed</p> <ul style="list-style-type: none"> <li>SecureSign freeze after macro click</li> <li>Error which cause message that not enough biometrical data is collected</li> <li>Exception when closing SecureSign</li> <li>Incorrect log of OS Version</li> <li>Signature line was drawn to thin and in incorrect colour</li> <li>Removing "Back" button while signing was not working (button was active even if option was disabled)</li> <li>Problems with DocView and WebSign that Page was uploaded multiple times</li> <li>Updated incompatible Citrix files</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>Added Option to set default zoom level for DocViewing</li> </ul>		eSignatureOffice51_160929b.exe	
5.1.0.983	2016-11-16	<p>Improved</p> <ul style="list-style-type: none"> <li>Added support of JBig2-Images inside PDF documents</li> <li>Layout change in the "Colour Devices" menu</li> <li>Clarification that some options in the "Colour Devices" menu also affect black-and-white devices</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>Problem with Rendering of PDF documents (QuarkXPress 9.3)</li> <li>pale Rendering of scanned documents</li> <li>remove revocation list entry for SoftwareRootCA certificates</li> <li>GUI Settings not correctly imported with INIGEN.exe</li> <li>automatic use of Signature Fields doesn't work for all fields</li> <li>Not all Sections in Administration where translated because of problems with languages file</li> </ul>		eSignatureOffice51_161116.exe
