

# StepOver ImageLoader

## General

With StepOver ImageLoader the customer can change the non protected Ressources/Images on the pad. Those images are the Promoscreen-, SingInfoBG- and the SingInput-image. Until jet, only **duraSign Pad 10.0**, **duraSign Pad Brilliance** and **naturaSign Pad Colour** are supported.

You can run StepOver ImageLoader in two ways:

- With an User-Interface (see screen shot)
- Without User-Interface (see program parameters)
