

Tablet-HID Compatibility List

Information

Since the SOPad Version 5.1 we added a new Interface to the Driver, which is accessing the HID Interface from TabletPC directly. This means that we do not need a installed driver (wacom) anymore.

Compatibility List

We already tested succesful the new interface on the following TabletPC Models:

Manufacturer	Model	Digitizer	Operation-System
Fujitsu	Lifebook T5010	Wacom	XP, Vista and Win7, (Win8)*
	Lifebook T4210	Wacom	XP, Vista and Win7, (Win8)*
