## Version 4.x

Version	Date	Description	Jira-Task (only internal)	Setup
4.2.0.453		Added <ul style="list-style-type: none"><li>• Add parameter support inside the Upload-URL</li><li>• Add Spanish helpfile</li></ul>		
4.2.0.456		Added <ul style="list-style-type: none"><li>• Added Support of 4096 Encryption Keys</li></ul> Fixed <ul style="list-style-type: none"><li>• Bugfix to avoid crashes or warnings before and after signing</li><li>• Bugfix that no Pad was found</li></ul>		
4.2.0.460		Added <ul style="list-style-type: none"><li>• Function to lock the Form fields with the 1. Signature, this is the default behavior now (can be disabled in the configuration under file-handling)</li><li>• Export function for Random Key</li></ul> Fixed <ul style="list-style-type: none"><li>• Bugfix for missing temp folder</li><li>• Bugfix for using existing DigSig Fields</li></ul>		
4.2.0.494		Added <ul style="list-style-type: none"><li>• Support of DigSig Fields which are already inside a PDF Document. The fields have to be selected in the SSS or XML file by their Fieldname.</li><li>• Added Default Timeserver to eSO Settings which can be used for the timestamp. This server is hosted by StepOver (<a href="http://stepoverinfo.net:88/tsa/">http://stepoverinfo.net:88/tsa/</a>). Information's about trusted timestamping can be found in Wikipedia: <a href="http://en.wikipedia.org/wiki/Trusted_timestamping">http://en.wikipedia.org/wiki/Trusted_timestamping</a></li></ul>		
4.2.0.497		Added <ul style="list-style-type: none"><li>• Add NotaryInformation from Signaturpad to each Signature</li><li>• Notary Information can be check with eSignatureOffice (Menü: Check)</li></ul>		
4.2.0.500		Fixed <ul style="list-style-type: none"><li>• Increased Versionnumber to 500, the last Versions had a to low Number</li></ul>		
4.2.0.511	2011-10-05	Added <ul style="list-style-type: none"><li>• Directory and Pagepreview, there are new Options for this in the Administration</li><li>• new XML Tags for Stamp, Confirmation dialog, BackgroundImage and Location</li></ul> Fixed <ul style="list-style-type: none"><li>• Background-Image Upload in Standard-Signmode</li></ul>		

4.2.0.527	2011-11-07	<p>Added</p> <ul style="list-style-type: none"> <li>• new XML Tags for MacroButton-Historie and a to see if a Keyword was found or not</li> <li>• new mode for the pagepreview, can be activated in the Administration under Directory</li> <li>• timeserver is now used by default</li> <li>• new parameter to change Display brightness of the ColourPad</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Problem with invalid Signatures when the PDF-Form lock was activated</li> <li>• Renderproblems by scanned PDFs</li> <li>• Accessviolation with the Textsearch (Intelligent Fields)</li> </ul>		
4.2.0.529		<p>Added</p> <ul style="list-style-type: none"> <li>• Signature Properties for Location, Reason and Signer</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• missing German translation for new Options</li> <li>• Problems with XML Tag MacroButtonHistory</li> </ul>		
4.3.0.541	2011-12-16	<p>Added</p> <ul style="list-style-type: none"> <li>• Enable a sleeping Pad (ColourPad)</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Umlaute Problem with in XML</li> <li>• Textsearch Problems by PDF s</li> <li>• Rendering Problems by PDF</li> </ul>		
4.4.0.548	2012-01-12	<p>Added</p> <ul style="list-style-type: none"> <li>• XML Parameters(PDF Copy without Biodata)</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Fixed Problem with Signature Zoom</li> <li>• Not all Signature are visible in the Document Check</li> </ul> <p>Removed</p> <ul style="list-style-type: none"> <li>• Sealing Option in Macrobuttons (automaticity sealing)</li> </ul>		
4.4.0.560	2012-03-20	<p>Added</p> <ul style="list-style-type: none"> <li>• Error7 and Error5 to Retfile</li> <li>• More Stamp Informations are possible, the Dialog for that is flexible</li> <li>• new XML Parameter</li> <li>• Helpfile Option (CHM File)</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• SignInDoc Problems by Landscape Documents</li> <li>• Download Problems</li> <li>• Font Problems by some font types</li> </ul>		
4.4.0.562	2012-04-03	<p>Added</p> <ul style="list-style-type: none"> <li>• Signature Check directly after Signing</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Signing problems with existing DigSig Fields</li> <li>• Signature Check by Signatures with existing DigSig Fields</li> </ul>		
4.5.0.574	2012-05-09	<p>Added:</p> <ul style="list-style-type: none"> <li>• Support of Comfort and Flawless Pads</li> <li>• N-trig Support</li> <li>• New Functions for WebSign (GetWorkMode(); SetMode(); HighlightFields(); SetActiveField();)</li> <li>• New XML Tags (ReturnFormFieldValues, DisableAutoJumpToPrevField, EnableLastFiledSkipping, DisableBackButton)</li> </ul> <p>Fixed:</p> <ul style="list-style-type: none"> <li>• Zoom returns after Signing to previous level (WebSign)</li> <li>• Problem with PC Lock/Standby</li> <li>• PDF Rendering Problems</li> </ul>		
4.7.0.686		<p>Fixed</p> <ul style="list-style-type: none"> <li>• Problem when you change Windows Size while Signmode is active</li> <li>• issue with VirtualStore and the file Customer.bmp</li> <li>• German Translation Problem</li> </ul>		
4.7.0.688	2013-04-19	<p>Add</p> <ul style="list-style-type: none"> <li>• Mousewheel scrolling to form mode</li> <li>• Signature Confirmation with "Enter Key"</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Problem when loaded PDF with an Image-Signature</li> </ul>		

4.9.0.825	2014-03-31	Fixed <ul style="list-style-type: none"> <li>• problems by loading eSO caused by OpenSSL Libs</li> <li>• sopad using now the saved certificates for signing instead of creating each time a new one</li> </ul>		
4.9.0.830	2014-04-22	Fixed <ul style="list-style-type: none"> <li>• last signature is now always visible in SignInDoc-Mode</li> </ul> Improved <ul style="list-style-type: none"> <li>• the signature less fade out while saving</li> </ul>		
4.9.0.831	2014-04-23	Fixed <ul style="list-style-type: none"> <li>• Problem when leaving signature mode with View-Mode Button</li> <li>• Problem with HTTPS Connections (updated Transfer.dll)</li> </ul> Improved <ul style="list-style-type: none"> <li>• Installation with TCP Option will create "TCP and Citrix Extension" Folder + config.ini under AppData</li> </ul>		
4.9.0.835	2014-05-05	Fixed <ul style="list-style-type: none"> <li>• AfterCancel was not triggered by SSS and XML</li> <li>• Repeat and Abort functions didn't worked correctly</li> </ul>		
4.9.0.836	2014-05-08	Fixed <ul style="list-style-type: none"> <li>• AfterCancel Macro was triggered twice by optional signatures</li> <li>• a started Signatur was not saved with Macro Button</li> <li>• different default values in Startmanager and SOSigOffice</li> </ul>		
4.9.0.842	2014-06-20	Fixed <ul style="list-style-type: none"> <li>• Problems with XML Encoding (German Umlauts) by Output XML</li> <li>• Problems with &lt;DeviceKeys&gt; Tag (25sec delay)</li> <li>• Changing from Sign to View Mode by the first Signature was triggering AfterCancel action</li> </ul> Improved <ul style="list-style-type: none"> <li>• Error handling in case somebody just draw a single point</li> </ul> Add <ul style="list-style-type: none"> <li>• Form field option, that you can only insert text as width as the field is (there is still a problem that with different zoom settings the amount of letters you can enter is changing)</li> </ul>		
4.9.0.844	2014-06-26	Fixed <ul style="list-style-type: none"> <li>• Problem with Optional Signature ( were treated like mandatory fields)</li> <li>• Access Violation, when Pad Search was started without connected pad</li> </ul> Add <ul style="list-style-type: none"> <li>• Option in Administration to enable AfterSigning macro in case all signatures where skipped (by Default this means AfterCancel)</li> <li>• Logfile per Day, with option to delete log files older than x days</li> </ul>		
4.9.0.846	2014-06-29	Improved <ul style="list-style-type: none"> <li>• Behaviour of Document-View Button while Sign-process</li> </ul>		
4.9.0.848	2014-07-10	Add <ul style="list-style-type: none"> <li>• Support of Timeserver with longer Keys (4096)</li> </ul> Fixed <ul style="list-style-type: none"> <li>• Problems with grey pages while SignInDoc Mode with ColourPad Version 2.0</li> <li>• Improved Speed when swtiching to SignInDoc Mode</li> <li>• Problems with form field locking (caused Adobe crash when loading of the PDF)</li> </ul> Changed <ul style="list-style-type: none"> <li>• The behaviour of WebSign Active-X was changed, in the way that you can start another (second) instance of the Active-X and don't get the error message "another instance is already running". Now the new instance will terminate the existing instance, to allow a page refresh under chrome.</li> </ul>		
4.9.0.850	2014-07-14	Add <ul style="list-style-type: none"> <li>• Merging of PDF documents with XML-Input (new tag: &lt;PDF-Merge&gt;)</li> </ul> Changed <ul style="list-style-type: none"> <li>• TabletPC Support was temporally disabled because of a problem (will be back in 2-3 Weeks)</li> </ul>		

4.9.0.852	2014-07-16	<p>Add</p> <ul style="list-style-type: none"> <li>• Error message for the case the signature field was drawn over 2 pages</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Problems with Macro Visibility Options</li> <li>• Document with existing DigSig files won't save after signing</li> <li>• Removed Timeserver Response Logging</li> </ul>		
4.9.0.854	2014-07-31	<p>Fixed</p> <ul style="list-style-type: none"> <li>• Access violation by closing WebSign with Chrome Browser</li> <li>• Incorrect Build number in log files</li> </ul>		
4.9.0.859	2014-08-21	<p>Add</p> <ul style="list-style-type: none"> <li>• The same signature position will not be offered for signing if there is already a Signature at the same location inside the document (allows to use the same SSS and PDF multiple times without removing signatures from SSS).</li> <li>• Added PKCS12 import to XML and with start parameter</li> <li>• A signed DigSig can't be offered again for signing</li> </ul> <p>Removed</p> <ul style="list-style-type: none"> <li>• old start parameter for setting keys (from eSignatureOffice 3)</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Accessviolation/Memoryleak by the textsearch (BLS Engine)</li> <li>• Rendering Problem of an Barcode</li> <li>• Signature-Check showed only the details of the last Signature of the document</li> <li>• Save Problem by the combination of DigSig PDF and active Integrity Check after Signing</li> <li>• Problem with -nobiodata Parameter (only 1 signature was possible)</li> <li>• Problem with Signing Colour in combination with Image Sign function</li> <li>• Image Sign function supports now more image types</li> <li>• Problem with PNG Image Type for SignImage function</li> <li>• Skip Signature behaviour was not working correctly</li> </ul> <p><b>WebSign Problems under Chrome</b></p> <ul style="list-style-type: none"> <li>• multiple problems with Termination of WebSign under Chrome (OM-2, OM-3, OM-4, OM-5, OM-6, OM-12)</li> </ul>		
4.10.0.861	2014-08-28	<p>Add</p> <ul style="list-style-type: none"> <li>• Option for SSS and XML to show/disable the Signer-Request-Dialog</li> <li>• document content can be used in macrobutton (Textsearch)</li> </ul> <p>Fixed</p> <ul style="list-style-type: none"> <li>• Message Windows sometimes open in Background</li> <li>• Messages from devices was not handle and timeouts happens</li> <li>• Problem with Rendering-Threats between Signatures which were causing crashes</li> <li>• Zero Values in decrypted Biodata are removed</li> <li>• Message that the following signature is the last of the signature-set was not displayed. Import of that Value by SCS will only work with new SCS Files.</li> <li>• Save As was not Working in Menu of old/classic GUI</li> <li>• HTTP/FTP Problems in combination with XML and Macrobutton</li> <li>• Problems in case Timeserver URL is wrong and Signature Process was canceled</li> <li>• Signature Lines with old 1.x Firmware Pads where very thin</li> <li>• Change Error Message "Unable to load existing Signatures" to "Too less Signature-data. Please repeat."</li> </ul> <p>Changes</p> <ul style="list-style-type: none"> <li>• Timeout Parameter in SSS (+added to XML), it's now also saving a signature in case there are enough biodata</li> <li>• Replace the Abort-Button in Signer-Request-Dialog with a Button "No Stamp"</li> </ul>		
4.10.0.866	2014-09-15	<p>Fixed</p> <ul style="list-style-type: none"> <li>• Crash with happens with customer documents in combination with higher amount of signatures</li> <li>• Reloading of SecureSign was not working</li> <li>• Problems what Message or other Popup Windows stay in background, while using StayOnTop Parameter</li> </ul>		eSignatureOffice410_140915

4.10.0.870	2014-09-30	<p>Fixed</p> <ul style="list-style-type: none"> <li>• Biodata String was missing meta data of the signature rectangle</li> <li>• Administration Windows was blank in case it was accessed with SecureSign</li> <li>• Driver-XML check was not working correct</li> <li>• Rendering Problems which causing crashes (after signature and loading of the document)</li> </ul> <p>Add</p> <ul style="list-style-type: none"> <li>• Text search function for Macro Settings (e.g. to use content of the document for Email sending)</li> </ul>		<a href="#">eSignatureOffice410_140930</a>
4.10.0.872	2014-10-28	<p>Fixed</p> <ul style="list-style-type: none"> <li>• Sign Button was not visible after reload of SecureSign</li> <li>• Language Parameter (lang=) was not working anymore</li> <li>• Option to disable the Timeserver is not reachable message, was not correctly saved</li> <li>• Translation in Stamp Popup Windows was wrong</li> <li>• AccessViolation in WebSign (changing into signmode)</li> <li>• missing and wrong translations in Administration</li> </ul> <p>Add</p> <ul style="list-style-type: none"> <li>• New Option to handle read-only attribute when saving the pdf</li> </ul>		<a href="#">eSignatureOffice410_141028</a>
4.10.0.884	2014-12-19	<p>Fixed</p> <ul style="list-style-type: none"> <li>• small font when formfield was set to autosize</li> <li>• access violation when signature was saved (with FW 1.x devices)</li> <li>• multisign option was not detecting a signature at the same position inside the document (rounding error)</li> <li>• macro save option windows was not closing then renaming field was empty and renaming was disabled</li> <li>• incorrect versions number in HKLM</li> <li>• licence was not correctly saved (after program restart the licence popup came again)</li> <li>• PDF Rendering Problems</li> </ul> <p>Add</p> <ul style="list-style-type: none"> <li>• More Tooltips</li> <li>• Optional abort button for optional signatures (will stop signature process)</li> <li>• General Signature Options can be edit now (new Button in Signature-Set Window)</li> <li>• notification when search text was not found inside the document (file-renaming)</li> <li>• visibility of macro buttons have not start and end time</li> <li>• Showing serial numbers in devicesearch dialog</li> </ul> <p>Changed</p> <ul style="list-style-type: none"> <li>• Signature-Set Creation Window (renaming of Options and layout changes)</li> </ul>		<a href="#">eSignatureOffice410_141219</a>
4.10.0.890	2015-02-03	<p>Fixed</p> <ul style="list-style-type: none"> <li>• wrong file name is used by macrobutton option for save as</li> <li>• problem with logging</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>• TCP-Client Performance</li> </ul>		<a href="#">eSignatureOffice410_150203</a>
4.11.0.896	2015-03-02	<p>Fixed</p> <ul style="list-style-type: none"> <li>• colour device was not showing sign background when signature was repeated</li> <li>• AfterSign / Macrobutton visibility conflict</li> <li>• signature was saved instead of cancel (cause that AfterSign and AfterCandle where triggered)</li> <li>• HashDialog cancel failed when only one signature was part of the set</li> <li>• MacroButton disabeling option while signing was not working correctly</li> <li>• SCS Import Error</li> <li>• language parameter was not working</li> <li>• Macro Problem with classic UI</li> <li>• message before the last signature was not shown</li> <li>• PDF Rendering Problems</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>• Document Content search allows to search backwards and between 2 Strings now</li> </ul>		<a href="#">eSignatureOffice411_150302</a>

4.11.0.898	2015-03-17	<p>Fixed</p> <ul style="list-style-type: none"> <li>• incorrect "Valid to" time by created certificates</li> <li>• incorrect viewing Position by using Directory</li> <li>• After Import with Administration the Macrobuttons where not visible (application restart was necessary)</li> <li>• problem with too less Signature-data message</li> <li>• Set minimum windows width</li> <li>• handling when empty string was found by intelligent-renaming</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>• order by intelligent-renaming can be changed (new up/down button)</li> <li>• Windows layout size (using more than 100%)</li> <li>• Import Error message with FTPSET and SignatureSet Paths can be disabled</li> <li>• Removed FTP Setting as Standard Export-Option</li> </ul>		eSignatureOffice411_150317
4.11.0.901	2015-03-26	<p>Fixed</p> <ul style="list-style-type: none"> <li>• Repeat signature with Hash/Confirm Dialog was adding the previous signature image</li> </ul> <p>Improved</p> <ul style="list-style-type: none"> <li>• Added content search icon</li> <li>• Default FTP- and SSS-Set folder will now be placed into user folder</li> </ul>		eSignatureOffice411_150326.exe
4.11.0.901	2015-05-06	<p>Improved</p> <ul style="list-style-type: none"> <li>• Updated TCP and Citrix Files (final Versions)</li> </ul>		eSignatureOffice411_150326b.exe
4.11.0.906	2015-07-10	<p>Improved</p> <ul style="list-style-type: none"> <li>• incorrect created certificate will now replaced with a correct one automatically</li> </ul>		eSignatureOffice411_150710.exe
4.11.0.906	2015-08-05			eSignatureOffice411_150805.exe
	2015-10-05			eSignatureOffice412_151005.exe
4.12.0.922	2015-11-16			eSignatureOffice412_151611.exe
	2016-02-08			eSignatureOffice412_160208.exe
