Overview - Client based signing

With over 100,000 installations in Germany alone in the sectors of insurance, banking, industry, and healthcare, eSignatureOffice is probably the best-selling software for the handwritten electronic signature in Europe and the virtual standard in the German insurance sector. The reasons for this are both its excellent product security and the flexibility it offers with regard to the integration into existing software environments and processes. eSignatureOffice is a complete stand-alone PDF/A signing solution which does not require any additional third-party software products.

eSignatureOffice is best suited for "simple" and "advanced" electronic signature system.
